

FREEHILL MINING LIMITED

CORPORATE GOVERNANCE STATEMENT

The Board of Directors of Freehill Mining Limited (**Freehill Mining** or **the Company**) is responsible for the corporate governance of the Company. The Board guides and monitors the business and affairs of the Company on behalf of the Shareholders by whom they are elected and to whom they are accountable.

In accordance with the ASX Corporate Governance Council's **Corporate Governance Principles and Recommendations: 4th Edition (the Principles)**, the corporate governance statement reports on the Company's adoption of the Principles on an exception basis. This corporate governance statement provides specific information whereby disclosure is required of any recommendations that have not been adopted by the Company, together with the reasons why they have not been adopted. Freehill Mining's corporate governance principles and policies are therefore structured with reference to the Principles, which are as follows:

- 1: Lay solid foundations for management and oversight.
- 2: Structure the board to be effective and add value.
- 3: Instil a culture of acting lawfully, ethically and responsibly.
- 4: Safeguard integrity of corporate reports.
- 5: Make timely and balanced disclosure.
- 6: Respect the rights of security holders.
- 7: Recognise and manage risk.
- 8: Remunerate fairly and responsibly.

This corporate governance statement is in respect of the 12 month period ending 30 June 2023, and is current as at 28 September 2023.

1. Lay Solid Foundations for Management and Oversight

Recommendation 1.1: The Board and Senior Management - Roles and Responsibilities

The Board is responsible for the overall corporate governance of the Company.

The Board monitors the operational and financial position and performance of the Company and oversees its business strategy, including approving the strategic objectives, plans and budgets of the Company. The Board is committed to protecting and optimising performance and building sustainable value for Shareholders. In conducting business with these objectives, the Board seeks to ensure that the Company is properly managed to protect and enhance Shareholder interests, and that the Company, and its Directors, officers and personnel operate in an appropriate environment of corporate governance.

Accordingly, the Board has created a framework for managing the Company, including adopting relevant internal controls, risk management processes and corporate governance policies and practices that it believes are appropriate for the Company's business and that are designed to promote the responsible management and conduct of the Company.

Board Charter

The Board has adopted a written charter to provide a framework for the effective operation of the Board (**Board Charter**), which sets out:

- the Board's composition;
- the Board's role and responsibilities;
- the relationship and interaction between the Board and management; and
- the authority delegated by the Board to management and Board committees.

The Board's role is to represent and serve the interests of Shareholders by overseeing and appraising the Company's strategies, policies and performance. This includes:

- overseeing the financial and human resources the Company has in place to meet its objectives and protecting and optimising Company performance and building sustainable value for Shareholders in accordance with any duties and obligations imposed on the Board by law and the Company's Constitution and within a framework of prudent and effective controls that enable risk to be assessed and managed;
- reviewing management performance;

- setting, reviewing and ensuring compliance with the Company's values and governance framework (including establishing and observing high ethical standards); and
- ensuring Shareholders are kept informed of the Company's performance and major developments affecting its state of affairs.

The management function is conducted by, or under the supervision of, the Chief Executive Officer (**CEO**), Mr Paul Davies, as directed by the Board (and by other officers to whom the management function is properly delegated by the Board). Management must supply the Board with information in a form, timeframe and quality that will enable the Board to discharge its duties effectively. Directors are entitled to request additional information at any time when they consider it appropriate.

The Board collectively, and each Director individually, has the right to seek independent professional advice, subject to the approval of the Chairman or the Board as a whole.

A copy of the Board Charter is available on the Company's website.

Recommendation 1.2: Board Nominations

The Board will consider nominations for the appointment or election of Directors that may arise from time to time, having regard to the skills and experience required by the Company and procedures outlined in the Company's Constitution and the *Corporations Act 2001* (Cth) (**Corporations Act**).

The Company undertakes appropriate checks before appointing a person, or putting forward to Shareholders a candidate for election, as a Director. Candidates are assessed through interviews, meetings and background and reference checks (which may be conducted both by external consultants and by Directors) as appropriate.

The Company gives Shareholders all material information in its possession relevant to the decision on whether or not to elect (or re-elect) a Director, either in the notice of the meeting at which the election of the Director is to be held, or by including in the notice a clear reference to the location on the Company's website, Annual Report or other document lodged with ASX where the information can be found.

Recommendation 1.3: Terms of Appointment - Directors and Senior Executives

Each new Non-Executive Director will receive a letter formalising their appointment and outlining the material terms of their appointment.

Executive officers will generally have written employment agreements with the Company setting out their duties, obligations and remuneration.

The Board is responsible for determining and reviewing the remuneration of the Directors, the Non-Executive Chairman and the executive officers of the Company.

Recommendation 1.4: The Company Secretary

The Company Secretary is appointed by the Board and is responsible for developing and maintaining the systems and processes that are appropriate for the Board to fulfil its role. The Company Secretary is responsible to the Board for ensuring compliance with Board procedures and governance matters. The Company Secretary is accountable directly to the Board, through the Chairman, on all matters to do with the proper functioning of the Board. The Company Secretary is also responsible for overseeing and coordinating disclosure of information to the ASX as well as communicating with the ASX.

Recommendation 1.5: Diversity

The Company has not adopted a formal diversity policy and therefore, has not set measurable objectives for achieving gender diversity. The Board is of the view that the size of the Company and the scale and nature of its operations does not currently lend itself to an effective and meaningful application of such a policy. However, the Board intends to reconsider the adoption of a formal diversity policy periodically.

The table below sets out the respective proportions of men and women on the Board, in senior executive positions and across the organisation as a whole.

	Number	Percentage
Women in the whole organisation	0	0%
Men in the whole organisation	7	100%
Women in senior executive positions	0	0%
Men in senior executive positions	2	100%
Women on the board	0	0%
Men on the board	3	100%

Recommendations 1.6 and 1.7: Performance Review and Evaluation

The Board reviews and evaluates the performance of the Board, the Board committees, individual Directors and senior executives. The process is to involve the assessment of all of the key areas of responsibility of the Board, the Board committees, individual Directors and senior executives. The contribution of the Board, the Board committees, individual Directors and senior executives as a whole is reviewed and areas where improvement can be made are noted. The performance evaluation process is as follows:

- (a) each Director will periodically, and at least once every reporting period, evaluate the effectiveness of the Board, its committees and senior executives and submit observations to the Chairman;
- (b) the Chairman of the Board will make a presentation incorporating his assessment of such observations to enable the Board to assess, and if necessary, take action;
- (c) the Board will agree on development and actions required to improve performance;
- (d) given the small size of the Company and the scale and nature of its current level of operations, the Board has considered and believes that the current mix of skills and diversity as outlined in the Directors' Report is adequate. The Board will continue to monitor the mix of skills and diversity it is looking to achieve periodically;
- (e) outcomes and actions will be minuted; and
- (f) the Chairman will assess during the year the progress of the actions to be achieved.

This process aims to ensure that the Board, the Board committees, individual Directors and senior executives as a whole contribute effectively in achieving the duties and responsibilities of the Board. The Board has conducted performance reviews and evaluations of the Board, the Board committees, individual Directors and senior executives in accordance with the performance evaluation process for the 2023 financial year.

2. Structure the Board to Be Effective and Add Value

Recommendation 2.1: Nomination Committee

Due to the small size of the Board and the Company's current level of operations, the Company does not have a separate nomination committee.

The processes that the Board employs to ensure that it has the appropriate balance of skills, knowledge, experience, independence and diversity to enable it to discharge its duties and responsibilities effectively are set out in Recommendation 2.2 below.

Recommendation 2.2: Skills, Knowledge and Experience

Directors are appointed based on the specific business, corporate and governance skills and experience required by the Company. The Board recognises the need for Directors to have a relevant blend of skills and personal experience in a range of disciplines required for the proper management and oversight of the Company's operations, having regard to the scale and nature of its activities.

The Board seeks to ensure that its membership includes an appropriate mix of Directors with experience in the mining and resources sector, general management, accounting and finance and corporate affairs. The Board reviews its skill matrix at least annually to ensure as the Company develops, the Board continues to have the appropriate mix of skills, expertise and experience.

Recommendations 2.3, 2.4 and 2.5: Independent Directors and Independent Chairman

The Board considers a Director to be independent where he or she is independent of management and is free of any business or other relationship that could materially interfere with, or could reasonably be perceived to interfere with the exercise of their unfettered and independent judgement. The Board will consider the materiality of any given relationship on a case-by-case basis.

The Company's Board Charter sets out guidelines to assist in considering the independence of Directors and has adopted a definition of independence that is based on that set out in the Principles.

At the date of this statement, the Board comprises of three Directors, comprising the independent Non-Executive Chairman (Mr Benjamin Jarvis), the independent Non-Executive Director (Mr Peter Williams) and the CEO/Executive Director (Mr Paul Davies). The Board considers that Mr Benjamin Jarvis and Mr Peter Williams are free from any business or any other relationship that could materially interfere with the independent exercise of their judgement and are able to fulfil the role of an independent Director. The Board regularly considers and reviews its composition with regard to the Corporate Governance Principles and believes that each Director brings an independent mind and judgement to bear on all Board decisions. All Directors are able to and do review and challenge the assumptions and performance of management to ensure decisions taken are in the best interest of the Company. The Board continues to monitor the independence of its members and periodically considers the potential for further independent appointments.

Mr Benjamin Jarvis has been a Board member since 4 April 2023 and Chairman since 22 June 2023. Mr Paul Davies has been a Board member since 24 March 2015 and CEO since 24 February 2021 and Mr Peter Williams has been a Board member since 1 May 2023.

Mr Ray Mangion and Mr Jim Moore resigned as directors on 20 February 2023.

The Board regularly reviews the independence of Non-Executive Directors.

Recommendation 2.6: Induction of New Directors and Regular Review of Professional Development of Existing Directors

The Company has a programme for inducting new Directors. This includes giving new Directors a full briefing about the nature of the business, current issues, the corporate strategy and the expectations of the Board concerning the performance of Directors and access to all employees to gain full background on the Company's operations. Directors are encouraged to attend director training and professional development courses, as may be required to enable them to develop and maintain the skills and knowledge needed to effectively perform their roles as Directors, at the Company's expense (as approved by the Chairman and or the Board, as appropriate and applicable).

3. Instil a Culture of Acting Lawfully, Ethically and Responsibly

Recommendation 3.1: Articulate and disclose its values

The Company's values are behaviours that guide the actions and decision-making of staff, and reflect the Company's brand and culture. These values include conducting its business activities lawfully and ethically. The Company is also committed to providing a safe working environment, protecting the environment, and safeguarding public and employee health in all aspects of its operations.

The above values were endorsed by the Board and incorporated in the Company's Code of Conduct which is provided to each officer and employee of the Company upon the commencement of their engagement or employment with the Company. Management is responsible for instilling these values across the Company.

Recommendation 3.2: Code of Conduct

The Board recognises the need to observe the highest standards of ethics, integrity and behaviour. Accordingly, the Board has adopted a formal Code of Conduct that outlines how the Company expects its employees and Directors to behave during the course of their employment in dealing with employees, suppliers and customers of the business. The key aspects of this Code are to:

- comply with all Company policies, procedures, rules and regulations;
- be honest and fair in dealings with customers, clients, co-workers, Company management and the general public;
- protect from unauthorised use any information, records or other materials acquired during the course of employment with the Company; and
- respect the Company's ownership of assets and property.

Recommendations 3.3 and 3.4: Whistleblower policy, Corporate Ethics and Anti-Bribery and Corruption Policy

The Company has adopted a whistleblower policy that requires the Board to be informed of any material incidents under that policy. The whistleblower policy adopted by the Company is available at the Company's website.

The Board has not adopted separate anti-bribery or corruption policies, however the Company's Code of Conduct, however, sets out the steps to encourage employees to report unlawful or unethical behaviour and the Company's commitment to ensuring that Board is informed of a material breach and the reported matter is dealt with promptly and fairly and that the person making the report is not disadvantaged and the person alleged of wrongdoing is given the opportunity to respond. The Code of Conduct also includes a requirement that the Company's officers and employees to conduct themselves to maintain high standards of ethical behaviour in all dealings and activities.

The Company intends to review and develop the Code of Conduct to include further matters suggested by ASX for the content of anti-bribery and corruption policies.

4. Safeguard Integrity of Corporate Reports

Recommendation 4.1: The Board should establish an Audit Committee

Due to the small size of the Board and the Company's current level of operations, the Company does not have a separate Audit Committee and considers this function is efficiently achieved with full Board participation.

The Board devotes time annually to fulfilling the roles and responsibilities associated with:

- overseeing the Company's relationship with the external auditor and the external audit function generally;
- overseeing the Company's relationship with the internal auditor and the internal audit function generally;
- overseeing the preparation of the financial statements and reports;
- managing the process of identification and management of risk; and
- monitoring and reviewing the effectiveness of the Company's controls in the areas of operational and balance sheet risk and financial reporting.

Recommendation 4.2: Approval of Financial Statements

Mr Paul Davies, as the Company's CEO, and Mr Greg Hammond, as the Company's CFO, have declared to the Board that in their opinion, the financial records of the Company have been properly maintained, the financial statements comply with the Australian Accounting Standards and give a true and fair view of the financial position and performance of the Company. The declaration also confirms that their opinion has been formed on the basis of a sound system of risk management and internal control.

Mr Paul Davies and Mr Greg Hammond have also declared to the Board that the Company's risk management, internal compliance and control system is operating efficiently and effectively in all material respects.

Recommendation 4.3: Verification process for periodic corporate reporting

Before the financial statements for the half-year and full-year are approved, the Board receives a statement from the Company's CEO consistent with the requirements of the Corporations Act. The Company has also appointed Connect National Audit as its external Auditor, who reviews the above statements and provides an opinion on whether the Company's financial report gives a true and fair view of the Company's financial position and financial performance, and whether it complies with Australian Accounting Standards and the *Corporations Regulations 2001* (Cth).

The Company's external Auditor attends the Company's annual general meetings (**AGMs**) and is available to answer Shareholder questions about the conduct of the audit and the preparation and content of the Auditor's Report.

As to periodic corporate reports which are not subject to audit or review by an external auditor, the Company has not established a Disclosure Committee. However, due to the small size of the Board, all Directors and Company Secretary are generally given opportunity to comment on and approve an announcement before it is published.

5. Make Timely and Balanced Disclosure

Recommendation 5.1: Continuous Disclosure Policy

The Board is aware of its obligation to keep the market fully informed of any information the Company becomes aware of concerning the Company, which may have a material effect on the price or value of the Company's securities, subject to certain exceptions.

The Company has adopted a Continuous Disclosure Policy that establishes procedures aimed at ensuring the Company fulfils its obligations in relation to the timely disclosure of material price-sensitive information.

The Company also aims to communicate all important information relating to the Company to its Shareholders. Additionally, the Company recognises that potential investors and other interested stakeholders may wish to obtain information about the Company from time to time. To achieve this, the Company will communicate information regularly to Shareholders and other stakeholders through a range of forums and publications, including the Company website, at the AGM, and through the Company's annual report and ASX announcements.

The Company's Continuous Disclosure Policy is available at the Company's website.

Recommendation 5.2: Board's visibility of information disclosed

Material market announcements are approved by the Board at regular Board meetings scheduled to coincide with ASX filing timetable requirements. Other material market announcements are generally circulated to the Board via e-mail ahead of their release for review and comment.

Recommendation 5.3: Release of investor or analyst presentations

Presentations and transcripts of the Chairman's address at AGMs will be released on the ASX Market Announcements Platform before the start of the meetings. Other presentations to new or substantive Shareholders or investor analysts are released on the ASX Market Announcements Platform prior to the relevant presentation.

6. Respect the Rights of Security Holders

Recommendation 6.1: Communication to Shareholders and Investors via the Company's Website

The Company aims to communicate all important information relating to the Company to its Shareholders. All relevant material is available at the Company's website under the dedicated sections titled "Corporate Governance" and "Investors". Additionally, the Company recognises that potential investors and other interested stakeholders may wish to obtain information about the Company from time to time. To achieve this, the Company communicates information regularly to Shareholders and other stakeholders through a range of forums and publications, including the Company's website, at the AGM, through the annual report and ASX announcements.

Recommendation 6.2: Investor Relations Program

Traditionally, the key forum for two-way communication between the Company and its Shareholders is its AGM. The Board encourages Shareholder participation at the Company's AGM and other general meetings of Shareholders and the Chairman encourages questions and comments from Shareholders and seeks to ensure that Shareholders are given ample opportunity to participate. Shareholders who are unable to attend the AGM or a general meeting may submit questions and comments before the meeting to the Company and/or to the Auditor (in the case of the AGM).

The Company will consider available methods of facilitating virtual attendance by Shareholders at the AGM. Further details regarding the nature of the AGM and how Shareholders may ask questions about agenda items will be contained in the notice of meeting. The AGM features an address by the Chairman and a presentation by the CEO which are also released to ASX prior to the meeting for Shareholders who cannot attend the meeting.

Recommendation 6.3: Shareholder participation at General Meetings

The Company is committed to promoting communication with Shareholders and encouraging Shareholders to participate at general meetings via different forums (through its website, ASX Announcements and direct communication or through the Registry).

Where the Company elects to conduct a general meeting virtually by technological means, the Company will ensure Shareholders will have the opportunity to participate virtually in the meeting. Shareholders will also have the ability to submit questions to the Company ahead of any general meeting.

Recommendation 6.4: Substantive Resolutions decided by Polls

The Company is committed to the principle of "one share one vote" and substantive resolutions at Shareholder meetings are decided by a poll instead of by a show of hands which does not take into account the number of shares held.

Recommendation 6.5: Electronic Communication

Shareholders may elect to receive Annual Reports electronically.

Shareholders may send communications to and receive communications from the Company and its Share Registry electronically. The contact email address for the Company is pdavies@freehillmining.com and Shareholders may submit electronic queries to the Company's Share Registry via its website <http://www.automic.com.au>.

7. Recognise and Manage Risk

Recommendation 7.1: Risk Committee

Due to the small size of the Board and the Company's current level of operations, the Company does not have a separate Risk Committee and considers this function is efficiently achieved with full Board participation.

The Board has procedures in place to recognise and manage risk in accordance with Recommendation 7.1. Monthly reporting of financial performance is in place as are policies to manage credit, foreign exchange and other business risks.

The Company is committed to the proper identification and management of risk. Freehill Mining regularly conducts technical meetings that are attended by Directors and executive officers. Freehill Mining also regularly undertakes reviews of its risk management procedures which include implementation of a system of internal sign-offs to ensure not only that Freehill Mining complies with its legal obligations, but that the Board and ultimately Shareholders can take comfort that an appropriate system of checks and balances is in place regarding those areas of the business which present financial or operating risks.

The Code of Conduct also sets out the Company's commitment to maintaining the highest level of integrity and ethical standards in all business practices.

Recommendation 7.2: Risk Management Framework

The Company's management is responsible for providing leadership and direction, for establishing a context which fosters a risk management culture and for ensuring business, financial and risk management approaches are integrated during the planning, implementation and reporting of major ventures at all levels within the organisation.

At the Company's Board meetings and technical meetings, the Company regularly undertakes reviews of its risk management procedures, which include implementation of a system of internal approvals to ensure not only that it complies with its legal obligations, but that the Board and Shareholders can take comfort that an appropriate system of checks and balances is in place in those areas of the business that present financial or operating risks. As part of this risk management process, the Company's management has reported to the Board in relation to its management of the Company's material business risks for the reporting period.

Recommendation 7.3: Internal Audit Function

The Company does not have an independent internal audit function. Due to the nature and size of the Company's operations, the expense of an independent internal auditor is not considered to be appropriate.

The Board performs all key elements of an internal audit function, including:

- evaluating, seeking and obtaining reasonable assurance that risk management, control, and governance systems are functioning as intended and will enable the Company's objectives and goals to be met;
- evaluating information security and associated risk exposures;
- evaluating regulatory compliance programmes with consultation from external legal counsel; and
- evaluating the Company's preparedness in case of business interruption.

Recommendation 7.4: Exposure to Environmental or Social Risks

The Company regularly undertakes reviews of risks that may be material to its business. The review examines the processes and procedures that are in place to continually manage existing risks and identifies new risks that have or may arise including the processes and procedures that the Company must initiate to control and/or mitigate these risks from impacting upon the performance of the Company.

The Company recognises, in particular, the environmental and social risks to which it may be exposed. The Company considers environmental risk to be the ability to continue its undertakings without compromising the health of the ecosystems in which it operates. The Company views social sustainability as the ability to continue operations in a manner that is acceptable to social norms. The Board intends to manage all environmental risks in accordance with the Health, Safety and Environment Policy, and all social risks where such risks are identified.

8. Remunerate Fairly and Responsibly

Recommendation 8.1: Remuneration Committee

Due to the small size of the Board and the Company's current level of operations, the Company has not established a Remuneration Committee as a subcommittee of the Board.

The Board is responsible for determining and reviewing the remuneration of the Directors, the Chairman and the executive officers of the Company and reviewing the operation of the Company's Employee Equity Incentive Plan. This process requires consideration of the levels and form of remuneration appropriate to securing, motivating and retaining executives with the skills to manage the Company's operations. In making decisions regarding the appointment of Directors, the Board as a whole periodically assesses that an appropriate mix of skills and experience is represented on the Board.

It is the Company's objective to provide maximum Shareholder benefit from the retention of high quality Board members having regard to the Company's level of operations and financial resources. Directors are remunerated with reference to market rates for comparable positions. Remuneration policies for each Non-Executive Director are disclosed in the Directors' Report that is set out in the Annual Report.

The Board may obtain information from, and consult with management and external advisers, as it considers appropriate.

Recommendation 8.2: Remuneration of Executive and Non-Executive Directors

The remuneration structure of Non-Executive Directors and executives is disclosed in the Directors' Report within the Annual Report. The remuneration of executives is dependent on the terms of the service agreement with those executives. The remuneration structure of Non-Executive Directors and executives is clearly distinguishable.

Recommendation 8.3: Equity Based Remuneration

The Company has adopted an Employee Equity Incentive Plan (*Plan*) in order to assist in the motivation and retention of selected employees of the Company. The Plan is designed to align the interests of eligible employees with those of the Company by providing an opportunity for eligible employees to receive an equity interest in the Company as an award. Under the Plan, eligible employees may be offered performance rights, options, deferred share awards or exempt share awards which may be subject to vesting conditions set by the Board.

The Company has adopted a Securities Trading Policy that is intended to explain the types of conduct in relation to dealings in securities that are prohibited by law and establish procedures for the buying and selling of securities that protect the Company, Directors and employees against the misuse of unpublished information, which could materially affect the price or value of the Company's securities.

The Policy provides that Directors, employees and their connected persons must not:

- deal in the Company's securities when they are aware of 'inside' information;
- deal in the Company's securities on a short-term trading basis (except in exceptional circumstances with approval); and

- hedge unvested equity remuneration or vested equity subject to holding locks.

In addition, Directors, certain restricted employees and their connected persons must not deal in the Company's securities during any of the following blackout periods (except in exceptional circumstances with approval):

- 7 days immediately before release of the Company's quarterly report, half yearly results, full year results and one day immediately following such release;
- 7 days immediately before the Company's AGM and one day following such AGM; and
- any other period that the Board specifies from time to time.

Directors and certain employees must receive prior approval for any proposed dealing in the Company's securities (including any proposed dealing by one of their connected persons) within these periods, and in all instances, buying or selling securities is not permitted at any time by any person who possesses 'inside' information.

The Company does not have a policy on whether participants are permitted to enter into transactions (whether through the use of derivatives or otherwise) which limit the economic risk of participating in the scheme.

The Corporations Act prohibits the key management personnel of an ASX listed company established in Australia, or a closely related party of such personnel, from entering into an arrangement that would have the effect of limiting their exposure to risk relating to an element of their remuneration that either has not vested or has vested but remains subject to a holding lock.
